

Immunoassay test report

Patient:	Lily	Species:	Canine	Patient ID:	2506152
Client:	Quennie Malibiran	Gender:	Female	Sample No.:	0000002
Doctor:		Age:	Adult	Time of analysis:	2025/06/15 11:36

Lab item	Current result
HW Ag	Negative

Operator:

Report Explan.

HW Ag

A positive result indicates the canine heartworm antigen is present in the sample. Even if the result is negative, the possibility of HW-infection cannot be ruled out.

* As with all other diagnostic tests, a single test result should not be used as the sole basis for clinical diagnosis but rather should be comprehensively evaluated by a veterinarian in combination with clinical symptoms and other laboratory test results.

Note: Due to the complexity and individuality of disease diagnosis, the report interpretation is only for your reference. Please consult your doctors for clinical diagnosis results.
The results only applies to this test sample.

Test Instrument: Mindray vetXpert I3 Time of Printing: 2025-06-15 11:39:22
